Frontier Drilling LLC  
950 17<sup>th</sup> Street Suite 2400  
Denver CO 80202

Dear Mac,

Reviewing your renewal I wanted to compliment you on a job well done. Not often do we experience a company with a focus on safety that truly pays off in rate deduction the way Frontier Drilling has experienced this year.

Thank you for the opportunity last month for Bryan's time spent showing one of Frontiers drilling rigs to Dan Hair our Senior Vice President of Underwriting/Safety, Richard Doty Senior Safety and Loss Prevention Representative and Myself. The safety guidelines set up as well as the equipment where outstanding. Bryan's knowledge and documentation showed Frontier walks the walk.

With only one year of experience from your Utah exposure added to your experience modification your E-Mod dropped more than 40 points to .60. With the other factors included Frontiers net rate will be 47% lower than last year. This equates to nearly a \$1,000,000 savings. Safety does pay. A rough calculation for next years E-Mod should drop below .50

WCF is pleased to have the opportunity to insure a quality company like Frontier Drilling. If there is anything we can do to assist in helping this partnership to continue in this positive direction please let me know.

Sincerely,

A handwritten signature in black ink, appearing to read "Scot Shurtliff", is written over the typed name.
